**Co Executive Director of Next Gen Forums**  
YunXi 2050 Conference  
May 2018 • 1 mo  
Science and Technology

2050 brings the world's youths together for science and technology. At 2050, young people around the world can reunite with old friends, make new contacts and unleash the power of the young generation to change the world. There will be no bystanders. Every participant is the owner and shaper of 2050.

The first 2050 will support more than 100 reunions of youth groups, present 10,000 square meters "Explorer Space" for the most creative youths, and offer over 100 Next Gen Forum sessions organized by our volunteer producers from diverse backgrounds. 2050 will also feature Run for the Sun, the Stage of Youth, Banma Cup Soccer Carnival, Hupu-King of Underdogs and Science Documentary Theater, Tianrang AI Meets Go, the Yunqi Light Show, and many other exciting programs. 2050 will also set up a camping area and provide 500 tents for outdoor sleeping.

Every year, Hangzhou Yunqi Science and Technology Innovation Foundation will support 100 youths from different countries to attend the conference through 2050 Future Plan, and provide a 10-thousand-dollar scholarship for each of the 10 winners of 2050 Youth Awards.

**Xiaodong Fan**  
Partner Group Engineering  
Manager - Bing at Microsoft  
August 17, 2017, Xiaodong  
managed Demi directly

During my 11 years in Bing Microsoft, Demi is definitely one of the best interns we have ever hired as a rising sophomore, among many other PhD interns with years of experiences in machine learning and NLP. Demi worked on using deep learning to improve our query parser for local search, for which ... [See more](#)
